The APS Four Corners Section (4CS) wishes to encourage early participation of students in professional activities and meetings. Special funds have been set aside for assisting students to travel to meetings. The intent of the 4CS is to maximize the number of students who can attend the meeting. For this reason, the grants will supplement any local funds available to students. The amounts of the grants will vary depending on location, need, etc. There is limited funding, and priority will be given to students presenting papers. Students are expected to share ground transportation; reimbursement for gasoline expenses will be made to the driver. It is also expected that students share rooms. All participants make their own arrangements. Student travel grants for 4CS meetings are intended for students associated with institutions (schools or laboratories) in the Four Corners geographical region. All requests made on or before the registration deadline will be considered. Awarding of student travel grants will be at the sole discretion of the 4CS Student Travel Grants Committee; all decisions of that committee shall be final. The amount of the grant will depend on the funds available. You will be notified by email about two weeks before the meeting of the specific amount available to you. Disbursements will be made at the meeting.
